

Simulated Game Shooting

Practice your bird shooting on clay targets from April to September.

Don't hang up your gun at the end of the hunting season. Come and enjoy a simulated driven shoot to maintain or improve your shooting. Invite your friends, family or professional relations for a relaxed and friendly simulated game day in the heart of countryside on our estate 35 minutes from Paris center. Our challenging targets are shown from actual game drives simulating pheasant, partridge or grouse. You will shoot 150 targets per gun during 5 simulated drives.

French catering is essential at Château de Janvry. You can choose to have lunch in our charming old kitchen. Our staff will grill a wonderful beef rib in the fire place in front of you, followed by a traditional cheese board and desert.

INFORMATIONS

Prices: 220 € / gun including:

- Coffee on arrival.
- 150 clay targets and 250 cartridges per gun.
